OBSERVATIONS AND CORRECTIVE ACTIONS

Item	MI /MA/ CR	Remarks	Date for Correction
------	------------	---------	---------------------

2.5	MI	Refrigerators shall be of a type and capacity that is adequate to meet the needs of the food premises.	October 12, 2023
-----	----	--	------------------

Comment: Drive thru cold table is not maintaining temperatures at or below 4 degrees Celsius. Equipment is currently offline and not being used. Operator must remove this unit from the facility if it is not being used. Repair or replace unit by 2023-10-12.

11.2	MI	Outstanding Infraction: If the premises is on private on-site sewage disposal system a grease trap must be present. These chambers must be sized and maintained in accordance with the manufacturer's instructions.	October 12, 2023
------	----	--	------------------

Comment: Infraction was not resolved. Increase frequency of cleaning to once per week for a few weeks for at least a month so that an appropriate cleaning frequency can be determined. No more than 25% of the wetted area inside the trap may contain fat, oil and grease. Operator stated they are now having a third party clean grease trap every three months: this schedule is inadequate.
