

Food Premises Inspection Summary Report

Name of Premise: Tim Hortons #2129 - Gateway Drive Address: 3 Gateway Drive Oromocto NB E2V 4R3 Water Supply: Municipal	Licence #: 03-01899 Type: Class/Classe 4 Category: Routine Compliance Date of Inspection: October 11, 2024
---	---

MI - Minor infraction; MA - Major infraction; CR - Critical infraction; CDI - Corrected During Inspection; N/A - Not Applicable

OBSERVATIONS AND CORRECTIVE ACTIONS

Item	MI /MA/ CR	Remarks	Date for Correction
2.4	MI	Refrigerators shall be of impervious material and of sound and tight construction and kept in good repair. Observations: At the time of the inspection, the walk-in cooler evaporator fans were accumulating debris. Comment: <i>Dirt and dust can build up walk-in refrigerator/freezer components over time, so it is important to regularly clean them. It is recommended to maintain walk-in units to ensure they will work to the best of its ability and prevent debris entering the food.</i>	Immediately
7.2	MA	Food contact surfaces, equipment and utensils shall be operated in a manner that ensures the safe and sanitary handling of food (i.e., need to dismantle meat grinder for cleaning). Observations: Ice machines had what appeared to be black biofilm build-up inside the sides of the units. Comment: <i>Moisture created in ice machines is an ideal environment for the growth of mould, slime, and biofilms that can contain harmful pathogens. Clean then sanitize all ice machines especially the interior surfaces, around the ice chute, backside of lid, and along the sliding lid track. The ice machine should be decommissioned and disassembled as necessary, until such time the ice machine is cleaned then sanitized to remove potential growth of microorganisms and subsequently prevent the contamination of beverages/ice.</i> Corrective Actions: <i>The ice machines were cleaned then sanitized during the inspection. Previously made ice were discarded.</i>	Corrected
8.1	MI	Floors, walls and ceilings shall be kept clean and sanitary. Observations: Floors in hard to reach areas are soiled with construction debris. Comment: <i>Complete a secondary deep clean with focus on hard to reach areas.</i>	Immediately
8.1	MI	The facilities and equipment necessary to carry out effective cleaning and sanitizing shall be provided or shall be accessible. Observations: The janitorial sink caulking is in deteriorating condition. The operator has indicated the renovation of the existing janitorial sink has not been renovated yet. The future plans suggest that a ground level janitor sink will be installed. Comment: <i>Repair or replace the caulking to ease cleaning.</i>	Immediately

CLOSING COMMENTS

All outstanding infractions are to be corrected at the next routine inspection.

Rating colour: Green
